

# Clifton Beale

Portfolio Site: [Clif Codes](#)

## SUMMARY

- Possess two years of hands-on experience with HTML, CSS, JavaScript and related frameworks and libraries (React.js, Next.js, Node.js, TypeScript)
- Spearheaded the end-to-end development of a cutting-edge web application over several months, showcasing exceptional leadership and project management skills to deliver a successful product.
- Successfully completed a bootcamp course provided by #VetsWhoCode, culminating in the creation of a fully responsive portfolio website. Demonstrated adaptability and learning agility by mastering the migration process from static HTML/CSS to Next.js + React.

## PROFESSIONAL EXPERIENCE

**Next Meal:** ([GitHub Link](#))

**07/2023-10/2023**

**Lead Web Developer:**

- Lead the full lifecycle development of an innovative web application over an extended timeframe, prominently demonstrating exemplary leadership and project management capabilities.
- Leveraged emerging technologies such as the Vercel AI SDK, Supabase, and Prisma ORM to enhance the application's capabilities and user engagement.
- Optimized API performance by implementing Next.js for serverless infrastructure, enhancing the overall user experience.
- Designed and developed a user-centric web project, leveraging React to ensure a seamless and engaging user experience.

**Upwork (Freelance)**

**07/2021-03/2023**

**Supermind**

- Enhanced AI tool parsing & filtering, resulting in 42% efficiency response improvement.
- Engineered prompt directives to guide AI to provide better responses, resulting in improved response quality.
- Incorporated safety regulations for the AI tool to ensure tool resilience.
- Communicated daily to ensure prompt and accurate solutions delivering rapid, quality results

## EDUCATION

**Vets Who Code:** ([GitHub Link](#))

**03/2023-08/2023**

**Web Developer Bootcamp**

- Utilized a CI/CD environment to track the development process over the course of 5 months to build a professional portfolio.
- Completed a migration process from a static HTML page to a full stack React web app, while also using technologies like TypeScript, Next.js, Node.js, Git, & CSS.
- Developed API endpoints using serverless infrastructure and serverless functions offered by Next.js to display dynamic information.
- Set up Google Analytics v4 to monitor site traffic and monitor performance overall.

## SKILLS

**Languages:** HTML, CSS, JavaScript

**Frameworks & Libraries:** Next.js, Node.js, React, TypeScript

**Software:** VSCode, Git, GitHub, Netlify, Vercel, Firebase

**Platforms:** Windows, MacOS, Linux
